

Antonietta Di Adila

ABE COMMITTEE MEMBER -Abe Site Italy

antodia60@gmail.com

She holds a Master's Degree in Biological Sciences and is a retired science teacher from a Scientific High School. She currently serves as a member of the ABE Educational Committee, and is a veteran teacher and co-trainer in the ABE Programme in Italy. She is also a Scientix Ambassador and author of learning scenarios within the SCIENTIX initiative, aimed at promoting STEM education across Europe. Throughout her career, as a specialist in science curricula, she has served as a tutor, trainer, mentor, coordinator, and author in national and international science education programmes and projects promoted by the Italian Ministry of Education, universities, the Museum of Natural History, and research centres in Foggia, with which she continues to collaborate. She has also worked with the *School for Inquiry* at the ANISN IBSE Centre (University of Bari), contributing to the dissemination of Inquiry-Based Science Education (IBSE). For over thirty years, she has passionately worked alongside colleagues and students in the field of science education.
